

How to Structure Sentences Effectively

For students

Five Golden Rules: -

1. Sentences **must** always begin with a capital letter.
2. Sentences **must** always end with. (Or ... Or ? Or !)
3. Sentence **must** make sense. Check through them to make sure they say exactly what you want them to and you have not missed out any words.
4. Two sentences can be linked together using connectives such as *'next'*, *'in addition'* or *'on the other hand'*.
5. Usually sentences follow an SVO (**subject** – **verb** – **object**) pattern in English. For example, **'The teacher walked down the corridor.'**
