

Curriculum Intent

The Meole Brace School Offer

We consider our 'curriculum' to be everything students learn whilst studying with us, whether that is in the classroom or through extra-curricular activities, **or in their interactions with staff or the wider world**, or simply through achievements gained and mistakes made. Our intent is to provide a wide range of **high-quality** opportunities to facilitate **this** learning.

We want our young people to develop the skills needed to be successful **life, wherever that might take them**, including being literate, numerate, having good study and inter-personal skills. We want to encourage the very best possible attitude to learning, and everything that encompasses, which **we believe will underpin** their future success.

We want our curriculum to encourage our students, and their parents/carers, to regard learning as a tool for unlocking potential and an investment in their future. We want it to foster an interest and enjoyment for learning and for it to be a stimulating experience, which encourages them to discover the world and be inquisitive.

Whilst our intent is to offer a **broad, rich and deep** curriculum, **accessible for all**, which promotes the highest possible academic achievement, we recognise that **some of our students will need a different approach**. However, **because as educators we simply don't know what our students will eventually become**, our curriculum intent is to give them every chance of success.
